Job Summary

Description

The Senior Poison Information Specialist serves as a knowledge resource to the lay community in the event of a poisoning emergency, and uses independent judgment to help physicians plan the optimum management of toxicological problems. The individual evaluates the toxic hazards and initiates appropriate management of toxicological emergencies, potential rabies exposures, and other public health related problems presented by the lay public and healthcare professional callers. This position interacts with government emergency resources in organizing a response to toxic emergencies, reports all potential rabies exposures to Georgia Department of Public Health, and represents the poison center through community health programs. This position also facilitates training and supervising of junior members of the poison center staff, house staff, medical/ pharmacy students, and other health care professionals.

Job Responsibilities

Description

Uses telephone communications to provide initial triage, management, and education of toxicological emergencies for the lay public.

Demonstrate flexibility and adaptability in staffing a 24-hour emergency telephone service while remaining punctual and on-time for every shift.

Maintains certification with the American Association of Poison Control Centers and other required certifications.

Uses downtime to perform QA projects.

Attends appropriate safety training and other mandatory sessions, including staff meetings.

Provides physician and other medical staff callers with information on agent toxicity, pharmacokinetics, detailed medical management and prognosis in a clear, and professional manner.

Supervises and trains center personnel as assigned by Directors.

Enhances and maintains the center's capabilities by keeping up with current consumer products, chemical recalls, and agency bulletins relative to toxins which impact on human and environmental health issues.

Description

Assists in the management of poisoning as a public health problem through participation in public and professional education programs, representing the center publicly in appearances at workshops, seminars, lectures, and health fairs.

Participates in and provides continuous education requirements and quality initiative projects.

Ascertain all necessary information and an accurate history from caller, then creates and maintains appropriate medical records according to the Center's standards.

Education

Description

Required:

Baccalaureate degree and/or degree in Pharmacy, Nursing (to include Associate Degree), Medical Doctor degree or similar health care profession as defined for eligibility for certification as Poison Information Specialist as defined by the American Association of Poison Control Centers.

Preferred:

Experience

Description

Required:

Four (4) years (8,000 hours or more) of experience as a Specialist in Poison Information (SPI). Training and experience within the medical health field as a pharmacist, nurse, or medical doctor.

Preferred:

Skills/Cert/Licenses

Description

Required:

Must be currently certified as a Specialist in Poison Information (CSPI) by the American Association of Poison Control Centers (examination required) and maintain certification.

Knowledge of the toxicologic applications of human physiology, chemistry pharmacology, action of drug, chemical and biologic toxins, information resources and their applications, pertinent toxicologic literature, medical terminology, systems of emergency management of this region.

Demonstrate flexibility and adaptability in staffing a 24-hour emergency telephone service.

Preferred:
